Summary Statement of Receipts and Expenditures:
(Exhibit B-1)

A summary statement of receipts and expenditures for the fiscal year ended December 31, 1964, made up in accordance with the uniform classification of accounts, is included in Exhibit B-1. Proof of the Treasurer's balance as of December 31, 1964, is shown in Exhibit B-2.

A statement of outstanding long term indebtedness as of December 31, 1964, showing annual debt service requirements, is contained in Exhibit F.

AUDIT PROCEDURE

The accounts and records of all town officials charged with the custody, receipt and disbursement of

public funds were examined and audited. Vouchers and cancelled checks were compared with supporting invoices and payrolls as well as entries in the books of record. Receipts were checked by source in so far as possible and totals of receipts and expenditures verified. Book balances were verified by comparison with reconciled bank balances made from statements obtained from depository banks. Verification of uncollected taxes was made by mailing notices to delinquent taxpayers as indicated by the Collector's records. The amounts of uncollected and unredeemed taxes as indicated in this report are therefore subject to any changes which may be necessitated by the return of verification notices.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Rollinsford:

The problems of this school district have multiplied over the past year. The basis for the difficulty can be traced to one source: a substantial increase in the enrollment of the school. Two years ago, we enrolled over forty pupils in grade two. This year we enrolled more than forty pupils in grade one. Good education for all children cannot be maintained when the number of pupils per teacher exceeds twenty-five in the primary grades; it is physically impossible to provide the kind of help children need when they are placed in a large class.

Rollinsford has been fortunate over the years with small enrollments in each grade. Last year, for example, twenty-six pupils graduated from the eighth grade; within three years, we will graduate thirty-six from this grade; and two years later, we will graduate over forty.

The school board, realizing the gravity of the problem, asked the selectmen of the town to join with the school board in planning an addition to the school. This building committee, made up of the school board and town selectmen, met many times during the past few months. They interviewed architects and chose the firm of Hersey Associates to design an addition to the present school.

The proposed addition includes: four classrooms, an addition to the present activities' room, a kitchen with adjoining storage space, toilets, nurse's and first-aid room, teacher's room, and storage areas. The four classrooms are vital if we are to satisfy immediate needs. The other areas are planned for the following reasons:

1. Activity room- the present room is small and will not accommodate at one time all the pupils we will have in the school. It is too small for basketball, and its size does not make it suitable for physical education classes. It is also planned to have this enlarged area used more often by the citizens of the town; and possibly, it could be

used for Town meetings if the town hall is abandoned in the future. With construction costs rising continually, enlargement of this room at this time is good economy. Also, as the classrooms will be located to the rear of the activities' room, enlargement of the activities' room at a later date would be impossible.

2. Kitchen and storage for the kitchen- the new kitchen would be located in the center of the building. Moving this facility from its present location will give us an additional small classroom in the present building. The storage for the kitchen should be located next to the kitchen for convenience. Removing food storage from the present book-and-paper storage will free this space for its original purpose.
3. Nurse's room and first-aid-station - every new school must have such an area for approval by the State Department of Education. Actually, one should be provided regardless of the state requirement. The principal's office, which provides very little privacy, is now being used for sick children and physical examinations.
4. Teacher's room - this is an area where teachers can go on their free time; they are entitled to some privacy. To be eligible for approval by the State Department of Education, the school must provide such a room for teachers.
5. Storage spaces- more classes and pupils will mean more equipment, books, and supplies. With the building planned to provide basic facilities for an additional four rooms beyond those planned at this time, this would mean a school with a capacity of over five-hundred students. A school is like a home; we must have storage space. The space planned at this time is certainly not excessive.

These areas described in 1, 2, 3, 4, and 5 are all vital to a complete school. If these areas are not built, the cost would be a great deal more in the future, and the new addition would not be a functional unit.

BUDGET

The school budget for the next school year has increased due to the following factors:

1. Two additional teachers will be added to the staff. This will correct the continued overcrowding in grades one and two.
2. Slight increase in teachers' salaries for next year.
3. Teaching supplies and textbooks for more pupils, and higher costs for these materials.
4. Operation of a larger school plant will mean higher costs for fuel, lighting, custodial service, and maintenance of the building.
5. Tuition costs are up due to more pupils attending high school, and higher tuition costs charged by the high schools.
6. Supervisory Union costs have risen due to salary increases and higher operating costs in this office.
7. The contingency item has been increased to offset any unusual increase in tuition costs or other unexpected expenses for the school district.
8. Payment of principle and interest on the bonds for the addition to the school.

One final item should be explained in this report: the insertion of an article to provide that sweepstakes money received this year be used to pay for unexpected tuition expense. We now have thirteen more pupils attending high school than was planned for when the present (1964-65) school budget was submitted a year ago. Several families have moved into Rollinsford with high school pupils, the drop-out ratio has not been high, and some pupils have transferred from private to public high school.

We have many current and future problems facing us at this time. It is my conviction that with your assistance, interest, and support, each of our problems can be resolved satisfactorily.

In closing, I should like to extend my appreciation to the following for their contribution to the school district this past year: Mr. Hatfield, the school principal; the teachers; the custodian; the lunch director; the transporter, and many individuals too numerous to mention.

To the school board, thank you for your efforts this year on behalf of the community and the children.

Respectfully submitted,

Robert L. Brunelle,

Juvenile delinquency is rare in communities which really provide well for their children. Churches, schools, and other organizations coordinate their plans to provide constructive activity for young people in the late afternoon and early evening, and during school vacations. Exploitation and neglect of children are outlawed. Movies and other recreational activities are selected so that they do not cancel the good work that is accomplished elsewhere.

Such communities consider seriously how they may provide better schools. As a means of determining modifications needed in schools, local surveys are frequently made to define the educational needs of children and youth. In brief, communities which recognize their responsibilities to children not only talk about good education, but take action to build educational programs to meet the needs of children.

Education is effective when it fulfills the needs of children. These needs of children may be analyzed in two areas: (1) Basic needs, or those common to children throughout the world, and (2) Culture needs, or those which derive from the society in which children live. The development of stable, self-reliant, competent children depends upon adequate provision to meet needs in both these areas.

Basic needs are those conditions necessary to the development of people. Negatively, they are the conditions which, if violated, endanger good development. These conditions are considered in four major aspects: those necessary for good physical, emotional, social, and intellectual development.

In addition to the needs which are common to children everywhere, other needs develop from the culture in which children live. To begin with, our society requires literacy. It is necessary that our people be able to read, write, and use numbers. The need for literacy was recognized early, and our first schools were designed primarily to meet this need. Simple literacy skills are only the beginning of a modern education.

Rollinsford Grade School
January 1, 1965

To: The Superintendent of Schools
The Rollinsford School Board
The Citizens of the Town of Rollinsford, N.H.

It is with pleasure that I submit to you this annual report covering in part some of the activities of the Rollinsford Grade School during the year 1964-1965.

Good education provides for a healthy growth and development in all stages of childhood. Our schools from the first grade through high school should attempt to follow this progressively changing pattern in such a way that at each stage of his growth, every child is so guided in his development that he attains the fullest measure of self-realization and achievement. No sharp division separates these stages. Continuity through elementary and high school should provide for the steady growth of all children.

Communities with good programs of education for all children and youth are marked by certain attitudes and activities. Adults in such communities show interest in all children. They seem to say "Our children are important to us. We want to give them a better chance than we had. We consider the children of fundamental importance to our community, dependent on us, and fully entitled to our consideration. They are our present investment in the world of tomorrow."

Adults in such communities recognize that the family is the most important educational influence in the lives of children. They recognize that what children learn in the home and at play is often more influential and long-lasting than what they learn at school. For this reason they work together to help the home, the school and the community provide effectively for children. Study programs are introduced to help parents, teachers, and other adults to understand children, to guide their hobbies, interests, and abilities, and to care for children who are handicapped.

Over the years, changes have occurred in our society. Democracy has developed distinctive attitudes and processes. The democratic ideal of respect for individuality has taken on new meaning. Our society has gained some understanding of the development of both individual skills and cooperative living. As a result, the public schools, whose fundamental purpose is to develop people who can participate in democratic society are now required to help children develop attitudes and practices essential to democratic life, as well as to help them develop individual talents. The American public schools are obligated, then, to meet both the cultural needs for a citizenry competent to participate in democratic group living, and the basic needs of children.

Every aspect of an educational program is important in its relation to children; the school in which they live for six hours a day, equipment and materials with which the children work and play; the adults who are leaders in the school, relationships between teachers and parents; and experiences planned and incidental which children have.

The good community focuses every effort to maintain effectiveness in all of these elements of education.

FACULTY

There has been one change in the membership of the Faculty. During the summer Mrs. Ethel Ives resigned her teaching assignment in the second grade to accept a much better paying job in York, Maine. Her place was taken by Mrs. Patricia Reynolds of South Berwick, Maine.

Because of the great number of pupils in grade 1, and because Mrs. Alma Gray was unable to return as a Teacher's Aide in the first grade, Mrs. Douglas Rollins was hired to give Mrs. Benoit some help.

Reference to the Faculty Data Sheet will give all of the data pertinent to the various members of the faculty.

ENROLLMENT

The Student enrollment for the year has shown an increase again over that of the previous year. The enrollment of the Rollinsford Grade School stands now at an alltime high since the opening of the school in 1936. On September 9, 1964 when school opened for the fall term, the opening enrollment was 250 pupils. Since that opening date there has been an increase of eight pupils transferring in from various other school systems. We have had during this same period four pupils who have transferred out to other schools. The net enrollment at this date is 254 pupils.

HOT LUNCH PROGRAM

The Hot Lunch program of the Rollinsford Grade School is under the direction of Mrs. Barbara Wilson, who with her assistant Mr. Willis Lane, produces an excellent program.

A typical lunch for each day of the school year is as follows:

- (1) a hot dish
- (2) a sandwich
- (3) a dessert
- (4) a bottle of Pasteurized milk

Cost per child per lunch - \$.25

During the past ten years it has been possible to see a steady increase in the numbers of students who have their noon meal at school. In 1954 we were feeding an average of 65-70 pupils per day. Today the lunch program has expanded to the point where we are averaging 165 pupils per day.

There is also a special milk program available to those children who wish one or more bottles of milk to be consumed on the premises. This program averages about 70 bottles of milk per day.

The following is a summary of the school lunch program for the year.

ARTICLE 2. To see if the Town will vote to accept
the Budget as prepared and submitted by
the Budget Committee.

The Moderator explained the method of preparing
the Budget. It is prepared by the Selectmen, who
submit it to the Budget Committee. Each division
of the town is represented at the Budget Meeting.

Mr. Jackson moved that the Budget be accepted
as prepared and presented by the Selectmen, and that
the town appropriate \$95,224.00, and raise the sum of
\$66,424.00, and the Selectmen be authorized to borrow
\$28,800.00, to be payable at the rate of \$3200.00 per
year for nine years, to pay for the cost of recon-
struction of Roberts Road. Seconded by Mr. Leuchs.

The principal discussion was on the item of
\$32,000.00 to rebuild Roberts Road. Mr. Clyde Roberts
inquired as to the total cost, and it was explained
that it would be \$64,000.00, one-half to be paid by
the State, and the other half by the Town. Mr. Ross
suggested that the road be built a small portion at a
time, and Mr. Floyd Avery, State Engineer, said it
would probably cost a good deal more, as equipment
would have to be moved back and forth, etc.

Mr. Allard made a motion that the Roberts Road
be voted on separately from the Budget. Not seconded.

Moderator asked for a show of hands as to how many
were interested in the Roberts Road project, and it was

almost unanimous.

Mr. Russillo made a motion that we delete this item of \$32,000.00 from the Budget. Mr. Ross seconded. Motion was put to vote and was defeated, and the item remains in the Budget.

The Chief of Police and Chief of Fire Department both spoke of the need of an improvement in the Roberts Road.

Mr. Floyd Avery, State Engineer, showed a map of the proposed road, and outlined the method of doing the work. He stated it would be put out to contract, with the Selectmen having the opportunity of making suggestions and criticisms, and approving the contract.

Mr. C. Roberts inquired as to the situation regarding the Sewer project, and Mr. Hudon replied that it was in the hands of a private engineering firm, and the Town was awaiting their report.

Mrs. Roberts asked regarding the sale of cemetery lots, and Mr. Jackson explained that all sales of lots go to the Town, and the Trustees of Cemeteries take care of the funds for Perpetual Care.

Mr. Jackson's motion was then put to vote, and carried, and the Budget for 1964 has been approved.

ARTICLE 3. To choose all other necessary Town Officers for the ensuing year.

Surveyors of Wood & Lumber

Mr. Ovide Viel moved, seconded by Mr. R. Tous-saint, that the present officers, with the exception of Everly Richards, who is no longer in the Town, serve for the ensuing year. Motion carried, and the officers for 1964 are as follows:

Edwin Brown
Raymond Chase
Joseph Labrecque

Albert Viel
Ovide R. Viel

Trustees of Trust Funds

Mr. Jackson moved that Mr. H. Hall Roberts be elected for another term. Seconded by Mr. E. Hudon. Motion carried, and Trustees of Trust Funds are as follows:

H. Hall Roberts, E. J. Hudon, C. W. Jackson

Parks & Playgrounds

Mr. O. Viel moved, seconded by Lionel Caron, that Harold J. Page be elected for a three-year term. Motion carried, and Parks & Playgrounds consist of the following:

Harold Page, Robert Bertrand, Ovide R. Viel

Fence Viewer

Mr. O. Viel moved, seconded by E. Hudon, that Bliss Garvin be elected for the ensuing year. Motion carried.

Budget Committee

Mr. D. Rollins stated that as he was now a Selectman, his resignation was in order from the Budget Committee. The Moderator ruled that the man who had received the next highest votes on the ballots would be elected to the vacancy on the Budget Committee. This was Clyde Roberts, and he will serve for one year. He was sworn in by the Moderator.

ARTICLE 4. To see if the voters of the Town of Rollinsford will authorize the Selectmen to borrow money in anticipation of the collection of taxes.

Mr. O. Viel made a motion that we adopt this Article as read. Mr. D. Rollins seconded. Motion carried.

ARTICLE 5. To see if the Town will vote to authorize the Selectmen to administer or dispose of any Real Estate that has been or

Mr. R. Brunelle moved that Article 6 be accepted as read. Mr. Greenaway seconded.

Mr. Caouette made an amendment to change Section 3 to read "and shall pay a \$10.00 fee per annum therefor." Mr. Ross seconded. Motion carried.

Mr. Norman Rogers, speaking in behalf of Mr. M. Siegel, spoke against the Article.

Mrs. Rollins made an amendment to Section 3 to read as follows: "except those open for the primary purpose---". Mr. Rollins seconded. Motion carried. Section 3 now reads as follows:

"Each establishment which opens on the Lord's Day under the provisions of Section 1 except those open for the primary purpose of selling or exposing for sale, milk, bread, drugs, medicine and other necessities of life or the entertainment of boarders as set forth in RSA Chapter 578, Sec. 4 must obtain a permit from the Board of Selectmen, to be prominently displayed on the premises, and shall pay a \$10.00 fee per annum therefor."

Mr. Brunelle's motion was put to vote, and carried.

ARTICLE 7. To bring in your ballot on the following:

October 20, 1964

The special meeting of the Town of Rollinsford was called to order at 7 o'clock by the Moderator, Mr. Edgar Gray. He explained the reason for the meeting and read the Warrant.

Mr. Gray stated that the Board of Selectmen petitioned the Superior Court for authority to hold this meeting, and the judgment of the Court was this: It was found that an emergency existed which warranted a special meeting, and the Town is granted permission to hold a special Town Meeting under the provisions of Revised Statutes Annotated, Chapter 31, Section 5, provided proper and legal notice is given as required.

Article I of the Warrant was then read by the Moderator:

That permission may be granted to the Petitioners in accordance with the authority conferred upon this honorable Court by Revised Statutes Annotated, Chapter 31, Section 5, to hold a special meeting of the Town of Rollinsford to see if the town would vote an appropriation of \$41,000 to cover the cost of final plans and specifications for a sewage treatment system.

Motion was made by Mr. A. Labrecque that the Town appropriate a sum of money not to exceed \$41,000 for the purpose of preparation of final plans and specifications for the sewerage system recommended by Green Engineering Affiliates, such appropriations to include the acquisition by purchase or otherwise of such property as is required, authorizing the Selectmen to accept Federal and State aid for such project. Motion was seconded by Mrs. Helen Rollins.

(After considerable discussion, the following:)

Moderator: Are you ready for the question?

Answer: Yes.

A standing vote was taken, tellers being Mr. Rollins and Mr. Eldridge. 73 votes were counted, a unanimous vote in favor of the motion.

Moderator: There is another specific item in the Warrant, and that is, how are we going to raise the \$41,000.00.

Mrs. Walker: May I ask the Selectmen how they want to raise this money?

Mr. Rollins: It would be best to raise the \$41,000 on a short-term note and pay it back when we get the proceeds from the bonds which we will float in March and when the Federal people pay back their one-third of the accomplished work.

Mr. Charles Jackson made a motion that the Selectmen be authorized to borrow money on a short-term note until such time as the proceeds from the bonds have been received. Seconded by Mr. Viel.

Motion was put to vote and was voted in the affirmative, the count being the same as previously.

Mr. C. Jackson moved to adjourn, seconded by James Roberts. Meeting was adjourned at 9:20 P.M.
